EDUCATION

🎓 **Punjab College**, ICOM
Sept 2013 - May 2015

🎓 **Heritage College**, Bachelors Computer Science
Nov 2015 - May 2017

WORK EXPERIENCE

💼 **Internship, Faisalabad**, Frontend
02/2020 - 03/2020

Completed an internship focusing on foundational web development skills, collaborating on live projects, and learning industry standards in a fast-paced environment.

💼 **Freelance Web Developer**, Frontend
02/2021 - 09/2024

Gained hands-on experience in delivering high-quality web solutions for diverse clients. Successfully completed multiple projects in React.js, Node.js, and various backend technologies, consistently meeting client requirements and deadlines

💼 **PERSONAL PROJECT**, Full Stack React Native App
10/2023 - 11/2023

Created a cross-platform chat app using React Native Expo, Node.js, PostgreSQL,REST APIs, and Socket.io. The app seamlessly integrates communication features,supporting personal rooms. Real-time functionalities include online friend status,message read receipts, and a user-friendly friend search feature for initiatingconversations

💼 **Client Mobile App**, React Native App
08/2024 -

I am developing a full-stack mobile app using React Native Expo for cross-platform deployment. The app includes features like doctor search, signup, login for both doctors and patients, Google and Facebook login integration, a favorites list, and more. The backend is built with Node.js, and PostgreSQL is used for the database
